TO DESERT FLY PEST.

Professor Compere Discovers Natural Enemy of the Mealy Bug.

SAN FRANCISCO, May 22.—Geo. Compere, entomologist, arrived here yesterday on the liner China after a tour of India and the Far East in search of the natural enemies of the pests that infest the orchards of California. His quest was successful and when he left Western Australia three months ago the parasite that he found in India was reducing the ravages of the fruit fly to a noticeable degree. This parasite was discovered five years ago but previous attempts to introduce it into Australia failed on account of the opposite seasons. By putting the bugs to sleep in India with ice Compere got 100,000 of them to Australia alive. He woke them up in the heat of Australian winter and thinking they were still in India the parasites went to work with a will. Three generations of native born bugs saw the light before Compere left the Antipodes. He also took to Australia a parasite which swept away the cabbage aphid like fire. He has brought to California a parasite to destroy the mealy bug, a pest that causes great grief to the orange grower. He discovered this friendly bug in Japan.

BARON ENTERTAINED.

Schiff Extends Former Minister Of Finance Hearty Welcome.

NEW YORK, May 22.—Baron K. Sakatani, former minister of finance of Japan, who was the guest last night at a dinner given by Jacob H. Schiff, the banker, at the Hotel St. Regis, heard sentiments of the friendliest character toward Japan and her people expressed by the host of the evening by President Nicholas Murray Butler, of Columbia University, and by others of the guests among whom were included many bankers and railroad men of prominence. Mr. Schiff, in welcoming Baron Sakatani told his guest he would bear nothing but good will and friendship for the people of Japan. "You will learn," he said, "that no such sentiment exists as a small number of agitators on the Pacific Coast tried to arouse even if we do send battleships to the Pacific." Baron Sakatani, in replying expressed his thanks for the honor paid him and spoke fittingly of the friendship felt in Japan for America and Americans.

HANNA'S MONUMENT

Distinguished Men Will View the Unveiling Saturday

MEETING OF YALE CLUBS

Secretary Taft and Other Celebrities to be Present—2000 Members of the Brotherhood of Locomotive Engineers Will Attend—Hardley Speaks

CLEVELAND, May 22.—Distinguished men will be guests of the city today and tomorrow, called here by the meeting of the Associated Western Yale Clubs and the unveiling of the Hanna monument Saturday.

This afternoon, President Twining Hadley of Yale will reach Cleveland. Later in the day Secretary of War W. H. Taft will arrive. President Hadley will address the schoolmasters' club this evening. The meeting of the Yale clubs will be held Saturday evening.

Arrangements for the dedication of the Hanna memorial monument in University Circle have been completed and hundreds of prominent people from all parts of the country have signified their intention of being present. The local committee has received notification that President Underwood of the Erie Railroad, John Milburn, at whose house in Buffalo President McKinley died, and Isaac Seligman, the New York banker, will arrive early Saturday morning.

Mrs. Augustus St. Gaudens, widow of the designer and Henry Bacon of New York, the architect of the monument, also will be present.

Members of the Brotherhood of Locomotive Engineers, numbering 2000 will visit Cleveland tomorrow. The entire delegation of the organization which is holding its convention in Columbus is expected to attend the unveiling of the Hanna monument as a compliment to Grand Master Stone, who is one of the speakers of the day.

INCUBATOR BABY'S FATE

(Continued from page 1)

then decided the adoption was legal and gave the real mother six hours in which to surrender the baby.

While a deputy sheriff waited in the Bleakley home Mrs. Bleakley slipped out a back way with the child in her arms and caught an express train. By means of a bogus arrest by a bogus officer it is alleged, she had herself conducted safely past pursuit through Kansas and Missouri into Illinois, where the circuit court had recognized the validity of her claim. For several months she and her child lived happily at Rock Island until the supreme court returned the child to Mrs. Barclay.

Meanwhile an appeal had been taken in Kansas and the supreme court of that state had upheld the claims of the real mother. Mrs. Bleakley fled in disguise back to Kansas, where she now lives. Mrs. Barclay has spent \$50,000 in her fight for the baby. She calls the child Dorothy Edith Barclay. Its real mother, who is poor, has spent \$5000 in defending her claims. She knows the child as Marian Roberta Bleakley.

Several famous Kansas lawyers have handled Mrs. Bleakley's case free of charge. About \$3500 has been contributed to help her by public subscription.

UNIQUE FARM.

CHICAGO, May 22.—Turtles, guinea pigs, gold fish and mushrooms will be the products of a unique farm which H. S. Miller proposes to operate at Barrington, a suburb of Chicago. Mr. Miller has purchased 200 acres of rolling timbered land for his odd venture. He has begun the construction of numerous ponds and lagoons. These will be used for the propagation of turtles and gold fish. His mushrooms will not be of the cultivated kind, but will grow wild in the woodlands. His guinea pigs yards will be the largest, it is considered, in the country.

HOLMES' TRAGEDY

Body Was Found in a Down Town Alley

THE POLICE STILL BAFFLED

Solution of Mystery, Will Disclose it is Believed, the Operations of Experts—Was Last Seen Shortly After Midnight.

CHICAGO, May 22.—Solution of the mystery surrounding the murder of Robert P. Holmes, purchasing agent the Commonwealth Edison Electric Company, whose dead body was found in a downtown alley early yesterday will disclose, it is believed, the operations of experts in crime.

That the killing and robbing of Holmes was not the work of ordinary thugs, but was perpetrated by men who probably mingled with their victim's friends at the Auditorium, represented themselves to be delegates to the Electrical Convention and then followed him as he left the hotel, police authorities agreed after working all day on the tragedy.

Holmes is known to have left the hotel 15 or 20 minutes after midnight. Just before departing he told friends he thought he would get a cab and be driven home. Working on the theory that Holmes' murderers got him into a cab, slugged him into unconsciousness, and then threw his body into a dark corner as the vehicle was driven through the alley, patrolmen and detectives were last detailed to conduct a thorough search for clues among downtown cab drivers and to search leading hotels for suspicious characters.
